

The TERMS Advantage --

EARL - Environmental Assessment Reports Library[©]

Our EARL document storage and retrieval system offers a valuable alternative to traditional methods of managing the large volumes of data that usually exist when dealing with environmental matters.

With the TERMS EARL system, you can:

- Efficiently handle the entire environmental documentation process.
- Eliminate wasteful and costly document printing, shipping, and storage.
- Quickly access essential information in as much or as little detail as necessary.

EARL enables users to improve the efficiency of managing their information sharing and data management process while storing all information for easy future access. In addition, EARL will significantly reduce the cost of dealing with the tedious administrative aspects of handling environmental reports.

Utilizing EARL also adds a significant "green" component to your business practices. The TERMS team will continue to work with clients to incorporate new, greener approaches to their business processes.

The password-protected interface is highly secure. Once EARL has been accessed, you will have the ability to view, download, print, copy, or forward the report as frequently and for as long as you want.

Our secure, private, online system allows clients continuous access to all their environmental reports. TERMS offers the highest-quality document protection and security, including:

- 24x7 physical security
- 24x7 network monitoring
- Up to 256-bit SSL data encryption
- State-of-the-art data centers
- Managed backups
